Dear Clerk and counsels :

Please be advised that I am a class member in the above referenced matter a/k/a CARB2/Durability settlement class. My claim Number is LLA1271803, and my proof of purchase is attached. Stated simply, I object to the proposed settlement terms for my class (“Settlement”). The basis for my objection is as stated below.

The proposed Settlement has an alleged value of \$36,000,000 (“\$36M”). Of the 36M, the cash portion of the settlement is only \$22,000,000 (“22M”), the remaining \$14,000,000 (“14M”) in alleged value consists of a coupon or voucher program. The Fee Petition seeks \$11.957 M in fees and expenses consisting of \$11.16M in cash fees, and \$797,000 in cash expenses. Accordingly, the fee petition seeks 33.21% of the gross settlement. This is problematic because of the cash/voucher arrangement.

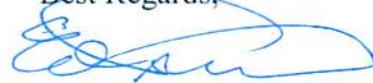

In this regard, the fee petition, including expenses actually seeks 54.4% of the cash. In addition, the settlement contemplates another \$1,210,000 or 5.5% of the cash for class administration for a total of \$13.167M in fees and expenses. That constitutes a whopping 59.8% of the 22M in cash available to Class Members. I believe the fee petition as it relates to available cash

to be excessive and unjustified. I believe the fee in this matter should be 1/3 of the cash, or about \$7M.

Alternatively, as an upper limit, counsel should receive no more than 40% of the cash, or \$8.8M, which constitutes about 25% of the entire fund. It is not the fault of class members that class counsel settled on their behalf partially in vouchers, which happen to be subject to alternative treatment under the Class Action Fairness Act. Accordingly, they should not be entitled to a full percentage of the voucher portion of the settlement and should be within my proposed 40% of total cash.

Further, in accordance with the required notice, I will not be attending the fairness hearing October 3, 2018. Finally, I never been an objector in any class action.

Best Regards,

Edward A. Proctor
